DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, drawn to a method of immunologically measuring the human medullasin content in blood, classified in class 436, subclass 66.
 - II. Claims 11-18, drawn to a method of diagnosing multiple sclerosis, classified in class 436, subclass 63.

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, group I is a method for measuring human medullasin by utilizing aqueous liquid reagents comprising various compounds i.e. salts, sugars, alcohols, fats etc, while group II is a method of diagnosing multiple sclerosis by utilizing aqueous solutions which do not require the same compounds of group I. For reasons, given above these inventions are patentably distinct.

3. Because these inventions are distinct for the reasons given above and the search required for one Group is not required for another Group and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. A telephone call was made to Mr. Gerald Murphy on 13 March 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
